

Relocating O'Neal family finds it all at The Oaks at Boca Raton

Garrett A. Foster (June 8, 2009) Laurie and Sean O'Neal, along with children Lily, 8, and Brayden, 5, are the happy new owners of a six-bedroom, 7,712-square-foot, single-family estate home in The Oaks at Boca Raton. The family is relocating from Rye Brook, NY, due to Sean's job and will be closing on June 15, 2009.

"We looked at several surrounding communities before absolutely falling in love with The Oaks," says Laurie. "It was a combination of the newness and natural beauty of the community, and all of the great people we met along the way that made us just fall in love. We love everything about our new home and made very few changes. I knew right away that it was the perfect fit for us."

More than 300 families are currently in residence and enjoying The Oaks' resort lifestyle. According to Lorna Swartz, director of sales and marketing, "Buyers find the elegant estate homes, a country club lifestyle with no equity fees, and a desirable Boca Raton address to be an exceptional value."

And Laurie agrees, stating that one of the major selling points for her and her husband were all of the incredible amenities and activities that The Oaks has to offer for family and kids.

"The resort lifestyle is unbeatable, and we fully intend on taking advantage," she says. "The pool, clubhouse and tennis facilities are outstanding, and my family is really looking forward to all of the special events and activities that the community has planned." The Oaks at Boca Raton is the imaginative creation of two of South Florida's premier builder/developer firms: Kenco Communities and Albanese-Popkin Development Group. They are joined in this superb community by the outstanding building firm of Charlse-Watt Communities.

"What a phenomenal experience it was dealing with the sales team at The Oaks," says Laurie. "They have been nothing but accommodating and wonderful, and have always been there to make us feel welcome and help with whatever questions we have had throughout the process. "My advice to potential homebuyers is that now is the time to buy," she adds. " In my opinion, we've hit bottom, and the market is only going to get better from here on out. If you want value for your home, now is the time to take advantage of the great opportunities that are out there."
